PROJECTS

AI-Powered Resume & Job-Description Matcher

- Built a REST API (Python/Flask) that uses an LLM to score resume-to-job-description match and suggest missing keywords.
- Stored candidate and job data in MySQL; deployed the API on AWS free tier.

Hostel Complaint Management System

- Web-based application to streamline hostel complaint submission, tracking, and status management.
- Built using HTML, CSS, JavaScript, and MySQL.

AI Focus Detection & Smart Classroom

- Smart classroom system with student focus tracking, teacher notes and quizzes, and transcript-style class recap.

Hand & Facial Expression Recognition

- Computer-vision project that recognizes hand gestures and facial expressions for interactive human-computer applications.

INTERNSHIP EXPERIENCE

Cybersecurity Intern — Reshapp Solutions

- Gained practical exposure to cybersecurity concepts, application security, network analysis, and security tools.
- Assisted in identifying security vulnerabilities and supporting basic security assessment processes.
- Developed working knowledge of secure application practices and cybersecurity monitoring fundamentals.
- Strengthened problem-solving, adaptability, teamwork, and technical learning skills in a professional environment.
